<<Art Nouveau Floral D>>

内容概要

Classic Art Nouveau floral motifs, rendered in a sensuous, curvilinear style, infuse a touch of elegance into fabrics, stained glass, wallpaper, and other art and craft projects. This collection of imaginative floral designs, created by a number of leading artists of the period, features a variety of blossoming beauties--from exotic orchids and graceful daffodils by M. P. Verneuil, to willowy wisteria by E. A. Seguy and stately lilies by Alphonse Mucha. Included in the set are: One CD-ROM containing 227 high-quality, permission-free images scanned at 600 dpi and saved in six different formats (TIFF, PICT, EPS, BMP, as well as Internet-ready JPEG and GIF) A large-format 48-page book with every image on the CD-ROM printed large and clearly and numbered for easy reference Also included on the CD-ROM is Dover Design Manager, a simple graphics editing program for Windows. Affording graphic artists, hobbyists, and designers a host of practical uses, this handsome visual sourcebook will delight browsers and devotees of French provincial design.
