<<French Decorative De>>

内容概要

The graceful forms and delicately carved details of eighteenth-century French decorative design lend craft and graphic projects a special air of grace and refinement. The elegant borders, cartouches, vignettes, and other configurations in this superb collection reflect those qualities. Fine line drawings of real and legendary beasts, scrolling curves, wreaths, floral motifs, garlands, classical urns, and more convey a timeless elegance that will provide craftworkers, illustrators, and designers with a wealth of handsome graphics.
