## <<Magic School Bus Pho>>

### 内容概要

Welcome to the Magic School Bus Phonics Reading Program!

Learning to read is so important for your child's success in school and in life.

Now Ms. Frizzle and her class are here to help your child learn important phonics skills. Here's how these readers work:

Phonics is the fundamental skill of knowing that the letters we read represent the sounds we hear and say. Add The Magic School Bus, and help your child LEARN to read and LOVE to read!

At first you may want to read the story to your child.

Then read together by taking turns line by line or page by page.

Look for all the words that have the sound being featured in the reader.

Read them over and over again.

Scholastic has been encouraging young readers for more than 80 years. Thank you for letting us help you support your beginning reader.
