<<Babybop Pretends 假装>>

内容概要

This book offers fun ideas to help young children use their imaginations in their own pretend play. It is through pretend play that young children learn about the world around them. You can help to stimulate your child's imagination by discussing each of Baby Bop's pretend situations and asking how your child would pretend to be a doctor, a firefighter, a zookeeper, etc. We consider books to be life-long gifts that develop and enhance the love of reading. We hope you enjoy reading along with Barney and Baby Bop!
