

<<儿科病理骨闪烁扫描法图谱 Atla>>

图书基本信息

书名 : <<儿科病理骨闪烁扫描法图谱 Atlas of Bone Scintigraphy in the Pathological Paediatric Skeleton>>

13位ISBN编号 : 9783540604716

10位ISBN编号 : 3540604715

出版时间 : 1996-05-13

出版时间 : Springer

作者 : Isky Gordon,Sibylle Fischer,Klaus Hahn

页数 : 343

版权说明 : 本站所提供之下载的PDF图书仅提供预览和简介,请支持正版图书。

内容概要

This atlas covers both the common and the less common pathologies affecting the paediatric skeleton, providing illustrations, teaching points, technical comments, and text discussion. Variations in the appearances of osteomyelitis are also extensively illustrated. The procedures employed to create the images presented in this volume include whole body scanning, gamma camera high resolution spot images, pin hole and SPECT. Three phase bone scans are also illustrated. Indications for the use of each procedure are dicussed. The many illustrations in this atlas offer the paediatrician, orthopaedic surgeon, radiologist and nuclear medicine physician the opportunity to compare them with their own images or with the "normal" images presented in the previous companion volume.

书籍目录

Chapter I : Introduction
 Chapter 2 : Infection
 2 . 1 typical Hot Lesion in Bone 2.1.1 lower limbs 2.1.2
 UpperLimbs 2.2 Less Common Appearances 2.2.1 Normal ScanGoing ontoAbnormal 2.2.2 Single Bone with Increased and Decreased Uptake 2.2.3 Acute Osteomyelitis Cold Lesions Only 2.2.4 ACHTC Multifocal Osteomyelitis 2.2.5 Chronic Infection NotTuberculosis 2.2.6 Tuberculosis 2.3 Unusual Sites . Excluding the Long Bones 2.3.1 Skull 2.3.2 Thorax 2.3.3 Spine 2.3.4 Pelvis 2.3.5 Fcct 2.4 Non-skeletal Infection 2.5 GrowthArrest
 Chapter 3 : Arthritis 3.1 Septic Arthritis 3.1.1 typical Appearances 3.1.2 Multifocal Arthritis 3.1.3 Osteomyelitis as a Complication of Septic Arthritis 3.2 Aseptic Arthritis 3.2.1 Inflammatory Arthritis 3.2.2 Immobile
 Chapter 4 : Injuries 4.1 Benign Tumours 4.1.1 Osteoid Osteoma 4.1.2 osteoblastoma 4.1.3 Benign Fibrous Cortical Defect 4.1.4 Bone cysts 4.1.4 SimpleBone cysts 4.4.2 Fractures
 a SimpleBoneCyst 4.1.4.3 Aneurysmal Bone Cysts 4.2 Malignant Tumours 4.2.1 Skeletal Sarcoma 4.2.1.1 Ewing'sarcoma 4.2.1.2 Osteogenic Sarcoma 4.2.1.3 Chondrosarcoma 4.2.2 Non-ImccCodermalTumours 4.2.2.1 Primitive neuroectodermal tumours 4.2.2.2 Neuroblastoma 4.2.2.3 Phacochonocytoma 4.2.3 Reticular Endothelial System Malignancy 4.2.3.1 Hodgkin's Lymphoma 4.2.3.2 Non-Hodgkin's Lymphoma 4.2.3.3 Leukaemia 4.2.3.4 Myelofibrosis 4.2.4 Osteosarcoma 4.2.4.1 Rhabdomyosarcoma 4.2.4.2 GermCellTumour 4.2.4.3 Synovial, Osteosarcoma 4.2.4.4 soft tissue sarcoma 4.3 Tumour Secondaries 4.3.1 Effect of treatment 4.3.2 metastases 4.4. Langerhans' Histiocytosis
 Chapter 5 : Trauma 5.1 Appearances at Common Sites 5.1.1 Skull and Face 5.1.2 Thorax and Shoulder 5.1.3 UpperLimbs 5.1.4 Spine 5.1.5 Fractures 5.1.6 Femur 5.1.7 Feet 5.2 Unusual Appearances of Locations of Fractures 5.2.1 Stress Fracture 5.2.2 Slipped Femoral Capital Epiphysis 5.2.3 Syndesmoses 5.2.4 Trauma Secondary to Cold Exposure 5.3 Diffuse Skeletal Involvement 5.3.1 Polytrauma 5.3.2 Battered Child 5.4 Complications of Trauma 5.4.1 Pseudarthrosis 5.4.2 Infection with Inflammation 5.4.3 Soft Tissue Damage 5.4.4 Reflex Sympathetic Dystrophy Sudeck's Atrophy 5.4.5 Necrosis of Bone 5.4.6 Growth arrest 5.5 Bone Response to Underlying Pathology 5.5.1 Pathological Fracture 5.5.2 Response to Pressure 5.6 Post-operative Appearances 5.7 Effect of Radiotherapy
 Chapter 6: Osteochondritis Dissecans—Avascular Necrosis 6.1 Legg-Perthes' Disease 6.2 Other Sites of Osteochondritis Dissecans 6.3 Sickle Cell Disease
 Chapter 7: Miscellaneous Chapter 8: Unusual Appearances of the Bone-seeking Tracer Subject Index
