<<血管疾病彩色图谱 Color At>>

内容概要

This book provides angiologists and vascular surgeons with a comprehensive survey covering all aspects of vascular diseases from diagnosis to treatment.

All clinical pictures are documented with pathological pictures , angiograms or X-rays.

Specific cases of differential diagnosis are included as are surgical photographs concerning the treatment of the diseases.

The book describes all vascular diseases from arterial , venous to lymphatic lesions.

It combines interests of vascular surgeons , angiologists , radiologists and cardiologists in a unique atlas and text combination of vascular medicine.
