

<<线性代数导引>>

图书基本信息

书名：<<线性代数导引>>

13位ISBN编号：9787030188885

10位ISBN编号：7030188888

出版时间：2007-1

出版时间：科学

作者：P.K.Tam

页数：410

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<线性代数导引>>

内容概要

《线性代数导引（英文版）》是由科学出版社出版发行的，《线性代数导引（英文版）》是一部关于线性代数的全英文教材。

全书内容以线性空间和线性变换为基础展开，从而使各章内容之间内在联系紧密，给教学带来方便。

书籍目录

Foreword (Originally in Chinese) Preface (for the English Translation edition) A Note from the Translator
Explanation for the Special Notational Device
Chapter 0 Integers , Number Fields and Polynomials
Part 1 General Theory of Systems of Linear Equations Introduction
Chapter 1 Algebra of Matrices
Chapter 2 The Determinant Method for a Special Class of Linear Equations (Cramers Rule)
Chapter 3 General Theory of Systems of Linear Equations
Chapter 4 Linear Spaces and Systems of Linear Equations
Chapter 5 Symmetric Bilinear Metric Spaces and Systems of Linear Equations
Part 2 The Principal Axes Problem of Real Quadratic Forms
Chapter 6 Linear Transformations on Linear Spaces
Chapter 7 A Class of Direct Sum Decompositions of Linear Spaces Relative to Linear Transformations
Chapter 8 Two Classes of Linear Transformations on Euclidean Spaces and the Principal Axes Problem of Quadratic Forms
Chapter 9 Further Development——Similarity Canonical Forms of Matrices
Bibliography
Index
