章节摘录

The ideas of forming an organization to help the sick and wounded during a war started with Jean Henri Dunant. In 1859, he observed how people were suffering on a battlefield in Italy. He wanted to help all the wounded people, paying no attention to which side they were fighting for. The most important result of his work was an international treaty called the Geneva Convention (公约). It protects prisoners of war, the sick and the wounded, as well as other citizens during a war. The American Red Cross was set up by Clara Barton in 1881. Today the Red Cross in the world provides a number of services for the public, such as helping people in need, teaching first aid, explaining water safety, artificial respiration and providing blood.
