

<<化工专业英语>>

图书基本信息

书名：<<化工专业英语>>

13位ISBN编号：9787040208030

10位ISBN编号：7040208032

出版时间：2011-5

出版范围：高等教育

作者：侯侠 编

页数：185

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<化工专业英语>>

内容概要

《全国职业高专教育“十一五”规划教材：化工专业英语》共分为17个单元，每个单元都由精读部分和泛读部分组成。

主要内容包括：基础化学、化工单元操作过程、炼油技术、无机化工、有机化工、精细化工、高分子化工、生物化工、清洁生产等。

同时，为了提高学生阅读能力，将基础知识与工程实际相结合，还特意编进了一些产品和设备的说明书、设备的安装说明书。

附录中设有数学符号表、常用有机基团名称表、化学元素表、单词表等。

《全国职业高专教育“十一五”规划教材：化工专业英语》适用于应用性、技能型人才培养的各类教育，也可供相关科技人员参考。

书籍目录

Lesson 1 Atomic structure Reading material Chemical bonding Lesson 2 Nomenclature of organic compounds-hydrocarbons Reading material Benzene Lesson 3 Fluid-flow phenomena Reading material Pumps Lesson 4 Heat transfer Reading material Heat exchangers Lesson 5 Distillation principle Reading material Distillation methods Lesson 6 Gas absorption Reading material Plate columns and packed columns Lesson 7 Crystallization Reading material Filtration and drying Lesson 8 The technologies of petroleum refining Reading material Gasoline Lesson 9 Synthetic ammonia Reading material Introduction to inorganic materials chemistry Lesson 10 Styrene Reading material Organic chemical processing technology Lesson 11 Food additives Reading material Considerations of industrial fine chemical synthesis Lesson 12 Polymerization techniques Reading material Polymers Lesson 13 Biochemical engineering Reading material Vitamins Lesson 14 Clean coal technologies Reading material Clean production Lesson 15 Computers and chemical engineering Reading material The introduction about a software application Lesson 16 Specification sheet of some devices Reading material Specification sheet and introduction of materials Lesson 17 The instrumentation of compressor of control system Reading material Operating instructions of lab-scale system Appendix 1 Names of common organic radicals Appendix 2 The table of chemical elements Appendix 3 Mathematical symbols Appendix 4 Glossary 参考文献
