### 章节摘录

版权页：插图：Global Entry is your express pass to process through the United States' international arrival areas. It is managed by U. S. Customs and Border Protection which allows pre-approved, low-risk travelers expedited clearance upon arrival into the United States. Although this program is intended for "frequent travelers" who make several international trips per year, there is no minimum number of trips an applicant must make in order to qualify. Participants may enter the United States by utilizing automated kiosks. The process requires participants to present their machine-readable U. S. passport or permanent resident card, submit their fingerprints for biometric verification, and make a customs declaration at the kiosk's touch-screen. Upon successful completion of the Global Entry process at the kiosk, the traveler is issued a transaction receipt and directed to baggage claim and the exit, unless chosen for a selective or random secondary referral. Travelers must be pre-approved before they can participate in the pilot program. All applicants will undergo a rigorous background check and be interviewed by a CBP officer before they are enrolled. Automated enforcement checks will occur each time the member uses the kiosk to enter the United States. Although pre-approved for the program and determined to be low risk, members of Global Entry may be examined at any time when entering the United States. Members entering the United States must complete the declaration questions prompted by the kiosk. If bringing items that must be declared, after completion of the kiosk transaction, the member will be directed to see a CBP officer.
