<<肝胆外科学（上、下卷）>>

内容概要

The new 3rd Edition of the classic, definitive reference, *Surgery of the Liver & Biliary Tract* has been completely updated and many chapters have been consolidated for a streamlined approach, allowing the reader to find answers to clinical questions more easily. In addition, this text features many more step-by-step procedures, extensively illustrated with over 200 new operative line drawings. Many updates have been made to reflect the latest information in the field. There is expanded new coverage of the management of tumors of the liver and biliary tract, as well as of benign diseases of the liver and biliary tract; emerging techniques for non-surgical treatment of tumors; developments in liver transplantation; and greater emphasis on laparoscopic techniques.

<<肝胆外科学（上、下卷）>>

作者简介

L.H.Blumgart,BDS MD DS(Hon)FACS FRCS(Eng,Edin)Frcps(Glas)Enid A.Haupt chair in surgery,Director,Hepatobiliary Disease Management Program,Memorial Sloan-Kettering Cancer Center;Pofessor of Surgery,Weill Medical College of Cornell University,New York,NY,USA

书籍目录

Contributors Preface Acknowledgments VOLUME I SECTION 1: ANATOMY AND PATHOPHYSIOLOGY
1. Surgical and radiologic anatomy of the liver and biliary tract 2. Assessment of liver function in the surgical patient
3. Liver hyperplasia, hypertrophy and atrophy and the molecular basis of liver regeneration 4. Liver blood
flow: physiology, measurement and clinical relevance 5. Bile secretion 6. The function of the biliary tract and
factors in the production of biliary pain 7. Biliary tract obstruction-pathophysiology 8. Infections in
hepatic, biliary and pancreatic surgery 9. Endotoxin and cytokines in liver and biliary tract disease 10. Molecular
and genetic determinants of hepatobiliary and pancreatic neoplasia 11. Hemostasis in hepatic biliary disorders
SECTION 2: DIAGNOSTIC TECHNIQUES 12. Clinical examination and investigation 13. Ultrasonography of the
liver and biliary tract 14. The role of nuclear medicine in the diagnosis and management of hepatobiliary diseases
15. Computed tomography of the liver and biliary tract..... SECTION 3: PRE- AND POSTOPERATIVE CARE
AND ANESTHESIA SECTION 4: INTERVENTIONAL RADIOLOGY AND ENDOSCOPIC
TECHNIQUES. BILIARY BYPASS AND INTUBATION SECTION 5: GALLSTONES AND GALLBLADDERS
SECTION 6: BILIARY STRICTURE AND FISTULA SECTION 7: BILIARY TUMORS VOLUME II Index
