章节摘录

无论从哪个方向进入拉萨，首先映入眼帘的必定是布达拉宫，朋友们，现在我们已经来到了这座宏伟的宫殿面前，我先给大家简要介绍一下它的基本情况。

布达拉宫是世界上海拔最高、规模最大、保存最为完好的古老的城堡式建筑群，是拉萨也是西藏的标志性建筑，是藏族古代建筑的一座丰碑。

它不仅是全国第一批重点文物保护单位，也被联合国教科文组织正式列入《世界遗产名录》。

布达拉宫高119米，共计13层，涵盖了堡垒、宫殿、寺庙佛堂等建筑形式，以其极高的历史、艺术价值和旷世宝藏闻名于世。

布达拉宫坐落在红山上，庞大的建筑群整体依山向上收紧，顶部是结合汉式飞檐和藏式平川建筑特点的辉煌金顶，令布达拉宫在具有强烈精神凝聚力及提升力的同时，又不失稳重。

由于依山而建，布达拉宫很好地结合了地势特点，在建筑框架上煞费心思，呈对称结构，整体上浑然一体，气势磅礴，极具空间感和秩序感。

单从建筑角度来说，布达拉宫既是皇家宫殿又是堡垒要塞，同时还具有宗教圣地和陵寝的功能。

经过历代重建与维修，布达拉宫本身及其周边建筑得以不断整饬，使得该建筑群在形式、功用及美感上形成完美的统一。

布达拉宫的神奇还在于它与红山的结合度上，无论傍晚还是清晨，无论从哪个角度看，那种建筑与地势浑然一体、恍若天生的气势都清晰而强烈，深深地震撼着每一位参观者。

不少藏族同胞都只是远远地朝着布达拉宫膜拜而不进入。

对于心存敬畏并极端虔诚的心灵来说，仅仅是口诵“布达拉”几个字便会被震撼，那种发自内心的崇拜使每个人肃然起敬。

No matter which direction you come to Lhasa, you must first see the Potala Palace. Now you are in front of the magnificent palace. First of all, please allow me to give you a brief introduction. The Potala Palace is the best-preserved ancient highest building at the elevation in the world. It is a symbol of architecture in Tibet as well as a milestone of ancient Tibetan architecture. Not only is it listed in the first group of key cultural relic units under national protection, but also is included in The World Heritage List by the UNESCO. Consisting of 13 storeys, the Potala Palace is 119 meters high and includes different building styles such as castles, palaces and temples. It is world-famous for its high value in history and art as well as its rare treasures. Located on Red Mountain, the great building complex follows the terrain of the mountain and the top is a splendid golden roof combining the characteristics of upward eaves in Han-style construction and the plain style of Tibet. With these characteristics, the Potala Palace has a strong spiritual cohesion and is quite solemn. Built along a mountain, the Potala Palace is well matched with the terrain and its symmetrical framework shows the designer's intelligence. The whole building is well constructed and has great momentum with a strong feeling of space and order. The Potala Palace is either an imperial palace or a castle and it is also a religion site as well as a mausoleum. The palace and the buildings around it have been continuously renovated. Thus, the Potala Palace complex keeps a perfect unity of form, function and sense of beauty. The mystery of the Potala Palace also lies on its relationship to Red Mountain. No matter whether it is dusk or morning and no matter from which aspect you see the palace, the unity of the building and the mountain is clear and strong which amazes every visitor. Many Tibetan people do not enter the palace but just prostrate themselves in worship towards the Potala Palace from a distance. With reverence and faithful hearts, they would be shocked by just saying the word "Potala". This veneration from the bottom of their hearts calls forth a feeling of profound respect.
