## 前言

Almost all the majestic and tolerant cities in the world have something in common . They are either age-old or grand in scale , with their buildings and streets stamped with the brand of history . Moreover, they are also good at attacking in everything confronting them , where you can find tradition coexisting with modern trends as well as characteristics of one ethnic group or nation mingling with that of another . There is no doubt that Beijing , a place of historical interest and modern attraction , gives proper expression to the characters and qualities typical of such cities . Beijing exudes a magnificent yet peaceful air as shown by emperors , and as the capital of the last four feudal dynasties in China , Zhongdu of the Jin Dynasty, Dadu of the Yuan Dynasty, Beijing City of the Ming Dynasty and Jingshi of the Qing Dynasty, it has witnessed the rise and fall of supreme power in China over the past seven centuries . Marco Polo ( 1254-1324 ) , an Italian traveler of the 13th century, depicted the beauty and splendour of Dadu of the Yuan Dynasty and the civility and richness of local people in his Travels of Marco Polo , and his praise and description of the city leave countless people deep lost in thought about it . A number of construction projects remain as great attractions . They are the Forbidden City, which is acclaimed as the largest and best preserved imperial palace in the world , the Great Wall built during the Ming period , which looks incredible to many visitors , the Summer Palace , the imperial garden provided by manpower in cooperation of nature , and the Ming Tombs , the largest in scale containing the greatest number of tombs for emperors and empresses and the best preserved in the world . All these scenic spots have become the symbol of Beijing and of China alike , which entertain US one story after another of the royal families . The charm of Beijing does not lie merely in the splendour, dignity and quietness of imperial power . If you give close attention to the old city , you would see behind the melodious dialect of Beijing a kind of culture displaying the warm , honest and natural qualities of common people in the city . The Siheyuan compound , something like a museum of civilian residences of Beijing that remains almost intact , shows an ordinary yet intelligent lifestyle .
