I will always remember the girl in my class in Grade 7.He was very quiet, never back-talked anyone ,always greetedothers in our school, or never interrupted the teachers. All myfriends thought she was only just strange, but I watched herfor a while and she was always so politely. All the kids at myschool were always rude not listening the staff. So one day,which I will always remember, I finally have the bravery toask her why she wasn't like others. She told me,"If you everwant to be respecting in life, you'll have to respect others. "Before she said that I started respecting others more and toldother people what I was told.
