

<<测度论>>

图书基本信息

书名：<<测度论>>

13位ISBN编号：9787506282741

10位ISBN编号：7506282747

出版时间：2007-2

出版时间：世界图书出版公司

作者：[德] 霍尔姆斯 (Paul R.Halmos)

页数：304

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<测度论>>

内容概要

本书是Springer《数学研究生教材》丛书之18卷，是测度论的经典名著，作者在遍历理论、代数逻辑、算子理论等方面的研究很有成就。

书中全面论述了测度论的各个方面，介绍了前苏联和法国各学派的研究工作及其重要成果。

详细内容包括：集合与类；测度和外测度；测度的扩张；测度函数；积分；一般集合函数；积空间；变换和函数；概率；局部紧空间；Huar测度；群中的测度和拓扑。

本书适用于数学专业的研究生及科研人员。

书籍目录

Preface Acknowledgments SECTION 0. Prerequisites CHAPTER : SETS AND CLASSES 1. Set inclusion 2. Unions and intersections 3. Limits, complements, and differences 4. Rings and algebras 5. Generated rings and σ -rings 6. Monotone classes CHAPTER : MEASURES AND OUTER MEASURES 7. Measure on rings 8. Measure on intervals 9. Properties of measures 10. Outer measures 11. Measurable sets CHAPTER : EXTENSION OF MEASURES 12. Properties of induced measures 13. Extension, completion, and approximation 14. Inner measures 15. Lebesgue measure 16. Non measurable sets CHAPTER : MEASURABLE FUNCTIONS 17. Measure spaces 18. Measurable functions 19. Combinations of measurable functions 20. Sequences of measurable functions 21. Pointwise convergence 22. Convergence in measure CHAPTER : INTEGRATION 23. Integrable simple functions 24. Sequences of integrable simple functions 25. Integrable functions 26. Sequences of integrable functions 27. Properties of integrals CHAPTER : GENERAL SET FUNCTIONS 28. Signed measures 29. Hahn and Jordan decompositions 30. Absolute continuity 31. The Radon-Nikodym theorem 32. Derivatives of signed measures CHAPTER : PRODUCT SPACES 33. Cartesian products 34. Sections 35. Product measures 36. Fubini's theorem 37. Finite dimensional product spaces 38. Infinite dimensional product spaces CHAPTER : TRANSFORMATIONS AND FUNCTIONS 39. Measurable transformations 40. Measure rings 41. The isomorphism theorem 42. Function spaces 43. Set functions and point functions CHAPTER : PROBABILITY 44. Heuristic introduction 45. Independence 46. Series of independent functions CHAPTER : LOCALLY COMPACT SPACES CHAPTER : HAAR MEASURES CHAPTER : MEASURE AND TOPOLOGY IN GROUPS References Bibliography List of frequently used symbols Index
