<<美国高考SAT全真模拟试题集>>

内容概要

《美国高考SAT全真模拟试题集》是SAT考试水平综合自测题集，题型多样化，内容丰富，实用性强。

SAT考试包括SAT、I推理测验（Reasoning Test）和SAT、II专项测验（Subject Tests）两个部分。SAT（Reasoning Test）考试时间为三小时四十五分钟，题型为选择题及写作，主要测验考生的阅读、数学及写作能力，满分是2400分。

SAT II（Subject Tests）时间为一小时，大部分为选择题，主要考查考生某一专业的知识。

可选择的SAT II单科考试科目有数学、物理、化学、生物、外语（包括汉语、日语、德语、法语、西班牙语）等，学生应根据各专业的要求报考。

章节摘录

(30) allows hazardous recessive traits to come to the fore , resulting in physical problems and , in some cases , infertility ; and second , it leads to a genetically uniform population without the diversity to resist epidemics and environmental changes. But the scientists who resist the inbred cheetah dogma point out that many ZOO cats bear healthy cubs , are perfectly fertile and vigorous , and have great avianity in their (35) immune systems. While the cheetah may look genetically tenuous when its DNA is appraised , by such real-life measurements as litter size , cub health , and immuneresponse , measurements as litter size , cub health , and immune response , the cheetah is perfectly fit for the millennium. The work of these scientists calls into question the validity of a strictly molecular approach to the sometimes murky science of species (40) preservation , and it strongly suggests that scientists do not yet understand why certain genetic patterns detected in laboratory tests translate into the genuine strengths and weaknesses of a wild animal. The work also indicates that ZOOS having trouble propagating cheetahs in captivity perhaps should not blame the animal ' S DNA. but rather their OWD ineptitude at the science of animal breeding. (45) In the final analysis , the cheetah ' S long-term future very remedies like preserving its remaining habitat and enlisting the help of those who live alongside it. In Namibia , where the cheetah does not have to compete with many other carnivores , as it does elsewhere in Africa , the feline fares reasonably well , and its biggest problem is ranchers who shoot it in the belief that the cat threatens their livestock. Biologists in Namibia are. (50) seeking to convince the cattle owners that cheetahs in fact kill very few livestock animals , and to establish a compensatory program should a calf occasionally be lost , with its sizeable free-ranging pitched as a uniquely Namibian cat and thus a source of national pride. More than an ideal genetic profile , the cheetah needs a bit of panting room and all the public relations its noble bearing can buy.
