

<<动物微生物学>>

图书基本信息

书名：<<动物微生物学>>

13位ISBN编号：9787511605016

10位ISBN编号：751160501X

出版时间：2011-7

出版时间：中国农业科学技术出版社

作者：胡建和，杭柏林，王丽荣 主编

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

## <<动物微生物学>>

### 内容概要

本书主要分为三部分。

第一部分为细菌学，主要包括细菌学总论、动物病原细菌学各论和四体（螺旋体、支原体、立克次体、衣原体）部分；第二部分为真菌学，主要包括真菌学总论和动物病原真菌学备论；第三部分为病毒学，主要包括病毒学总论和动物病原病毒学各论。

本书读者对象为动物医学专业学生和专门从事动物微生物学、动物传染病学与流行病学、动物免疫学、动物病理学的研究生，同时编者还希望本书为有关兽医工作者、从事微生物相关工作的学生和研究者提供帮助。

## &lt;&lt;动物微生物学&gt;&gt;

## 书籍目录

## Introduction

- 1 History of Microbiology
- 2 Fields of Microbiology
- 3 Benefits of Microbiology

## I. Bacteriology

## Chapter 1 Morphology and Structure of Bacteria

- 1 Cell Morphology
- 2 Cell Size
- 3 Structures of Bacteria
- 4 Gram Staining

## Chapter 2 Physiology and Ecology of Bacteria

- 1 Metabolism
- 2 Source of Nutrition for Growth
- 3 Growths and Reproduction
- 4 Medium
- 5 Environmental factors affecting growth
- 6 Biofilm
- 7 Animal Flora

## Chapter 3 Disinfection and Sterilisation

- 1 Term
- 2 Physical Methods of Sterilization and Disinfection
- 3 Chemical Methods of Sterilization and Disinfection
- 4 Antibiotics and Bacteriocin
- 5 Laboratory Safeties

## Chapter 4 Bacterial Infection and Pathogenesis

- 1 Basic Terminology of Infectionology
- 2 Determinants of Bacterial Pathogenicity and Virulence
- 3 Clinical Diseases
- 4 Regulation of Bacterial Virulence
- 5 The Genetics of Bacterial Pathogenicity

## Chapter 5 Bacterial Heredity and Variation

- 1 The Molecular Basis of Bacterial Genetics
- 2 The Genetic Variability of Bacteria
- 3 Intercellular Mechanisms of Genetic Variability

## Chapter 6 Classifications and Nomenclature of Bacteria

- 1 Definition
- 2 Criteria for Classification of Bacteria
- 3 Identification and Classification Systems
- 4 Descriptions of the Major Categories and Groups of

## Bacteria

- 5 Subtyping
- 6 Nonculture Methods for the Identification of Pathogenic

## Microorganisms

## Chapter 7 Coccus of Gram positive

- 1 Staphylococcus

<<动物微生物学>>

2 Streptococci

Chapter 8 Family Enterobacteriaceae

1 Features of Family Enterobacteriaceae

2 Escherichia

3 Salmonella

Chapter 9 Pasteuriaceae

1 Pasteurella multocida

2 Riemerella

3 Haemophilus

Chapter 10 Gram-negative Aerobes

1 Overview

2 Brucella

Chapter 11 Gram-positive Asporogenous Rod

1 Listeria

2 Erysipelothrix

Chapter 12 Gram Positive, Spore-Forming Bacilli

1 Bacillus anthracis

2 Clostridium

Chapter 13 Mycobacterium

1 Overview

2 Tubercle Bacilli

Chapter 14 Spirochaeta, Mycoplasma, Rickettsia and Chlamydia

1 Spirochaeta

2 Mycoplasma

3 Rickettsia

4 Chlamydia

II. Mycology

Chapter 15 Mycology

1 General Properties of Fungi

2 Fungal Diseases

III. Virology

References
