章节摘录

Will you be happy if you have a new Nike T-shirt on ?

Probably you will. But what if you see a friend 1 a more fashionable and more beautiful one ?

You may not feel as satisfied 2 you expect to and the feeling of happiness may disappear in a minute. Why are we not so happy as we should be ?

The secret is, we focus on what we want instead of what we have. We keep making our list of desires longer and longer. As a result, we are not pleased with what we have 3 owned. We say to ourselves, "I'll be happy when this desire is satisfied." However, another desire appears when this one is met. So, we still don't feel happy though we have got what we want. Happiness 4 when we always have new desires hard to satisfy.
