章节摘录

Dolphin Island is a small country that lies about 1500 kilometres off the coast of Japan , in the middle of the Pacific Ocean. From the beaches in the north , to the rocks on the coast in the south , the island is less than a hundred kilometers long , and from the west coast to the east coast the island is nowhere more than 80 kilometres wide. Winfield , the capital city , lies on the south-western coast. The highest mountain on Dolphin Island , Mount Ashton in the west , is a dead volcano. It is part of a range of mountains , running from north to south along the western coast. Dolphin Island has a mild sea climate. Most of the land can be used as farmland.

Dolphin Island has only four cities: The town of Ashton Creek lies in the north , Winfield in the southwest , Turnpike in the centre and Epsom on the eastern coast , about forty kilometers from Ashton. Dolphin Island is popular with tourists both from East Asia and the United States. ……
