<<网页人性化设计评估与应用>>

内容概要

《网页人性化设计评估与应用》主要内容为：This book will reveal the rules how to design a HOME RUN website. Additionally, instead of impoverished facsimiles of reality, design from a basis of strength and go beyond reality to things that were impossible in the physical world. It is painful to use the Web, so reward users by giving them something new and better that they didn't get before.
