<<英语电影听说教师用书>>

前言

教育部颁布的《大学英语课程教学要求》明确了我国大学英语的教学目标是“培养学生的英语综合应用能力，特别是听说能力，使他们在今后工作和社会交往中能用英语有效地进行口头和书面的信息交流，同时增强其自主学习能力，提高综合文化素养，以适应我国社会发展和国际交流的需要。”

编写原则 对于大多数学生而言，电影所带来的视听享受和随之而来的冲击力大大超过纯语言文字的吸引。

在本教程中，编者力图采用多样题材的英语影片，通过真实的场景和地道的语言来提高学生的英语听说能力。

同时，由于每一部影片都反映了其特有的历史、文化背景和风土人情，学生还可以透过影片了解其中的文化元素，逐步提高自身的综合文化素养。

教材特色 一，经典与流行相结合的多元化题材 遵循经典和流行相结合的原则，本教程选用了八部让人百看不厌、回味无穷的影片。

章节摘录

History of the Hippie Movement After the two world wars people wanted to break away from the traditional values imposed on them. The young, in particular, became rebellious, distained social norms and yearned to establish themselves ideologically. The Hippie Movement thus began in the United States as a youth movement in 1960s. Composed mostly of the younger population, hippies inherited a tradition of cultural dissent from bohemians and beatniks of the Beat Generation in the late 1950s. The Hippie Movement started in San Francisco, California and spread across the whole country. By 1965, hippies had become a discernible social group in the US. Through Canada, the movement soon expanded to other countries such as the United Kingdom, Australia, Mexico, Brazil and even Japan. Although the number of hippies declined in the mid-1970s, the kernel of their belief lingers and has been infused with new meanings by younger generations.

Effects of Single Parent Families on Single Mothers and Their Children Past research has indicated that children from single parent families, especially lone-mother households are more likely to have emotional, academic and financial problems. Children living without their biological fathers often feel unhappy, showing signs of depression, lack of self-esteem, irresponsibility, hostility to adults and other children and even antisocial behaviors. They have more troubles in school. Such children are more likely to score poorly on tests, have difficulty getting along with teachers and other students, play truant and be expelled from school. Therefore, children from single parent families are inclined to engage in offensive behavior, teenage pregnancy, excessive drinking and smoking, and drug abuse.
