前言

创新是一个民族的灵魂，也是高层次人才水平的集中体现。因此，创新能力的培养应贯穿于研究生培养的各个环节，包括课程学习、文献阅读、课题研究等。文献阅读与课题研究无疑是培养研究生创新能力的重要手段，同样，课程学习也是培养研究生创新能力的重要环节。

通过课程学习，使研究生在教师指导下，获取知识的同时理解知识创新过程与创新方法，对培养研究生创新能力具有极其重要的意义。

西安交通大学研究生院围绕研究生创新意识与创新能力改革研究生课程体系的同时，开设了一批研究型课程，支持编写了一批研究型课程的教材，目的是为了推动在课程教学环节加强研究生创新意识与创新能力的培养，进一步提高研究生培养质量。

研究型课程是指以激发研究生批判性思维、创新意识为主要目标，由具有高学术水平的教授作为任课教师参与指导，以本学科领域最新研究和前沿知识为内容，以探索式的教学方式为主导，适合于师生互动，使学生有更大的思维空间的课程。

研究型教材应使学生在学习过程中可以掌握最新的科学知识，了解最新的前沿动态，激发研究生科学研究的兴趣，掌握基本的科学方法，把教师为中心的教学模式转变为以学生为中心教师为主导的教学模式，把学生被动接受知识转变为在探索研究与自主学习中掌握知识和培养能力。

出版研究型课程系列教材，是一项探索性的工作，有许多艰苦的工作。虽然已出版的教材凝聚了作者的大量心血，但毕竟是一项在实践中不断完善的工作。我们深信，通过研究型系列教材的出版与完善，必定能够促进研究生创新能力的培养。

章节摘录

1. Different kinds of international meetings International meetings can be given different names according to their own characteristics. Meeting (会议的总称) refers to various kinds of assembly or gathering of people for a particular purpose, such as for a business, social, or religious purpose. Meeting is a general term and it can mean any kind of gathering. Conference (大型会议) is a formal and large-scale meeting which is organized on a particular subject to bring together people who have common interests. A conference usually lasts for a few days and consists of formal sessions such as panel sessions, parallel sessions, forums or workshops, poster sessions and informal activities. Congress (代表大会) is usually a large-scale formal assembly of representatives, as of various nations, to discuss issues, ideas, and policies of public interest. Convention (年会) is a formal and routine meeting of members, representatives, or delegates, as of a political party, fraternal society, profession, or industry. Forum (论坛) is a public meeting or presentation involving a discussion usually among experts and often including audience participation. At a forum, people exchange ideas and discuss issues, especially important public issues. Seminar (讨论会) is a class-like meeting, where participants discuss a particular topic or subject that is presented by several major speakers. Symposium (研讨会) is a meeting at which experts, scholars, and other participants of a particular field discuss a particular subject. A symposium is usually narrower and more specific in the range of topics than a conference and the scale of a symposium is also usually smaller than that of a conference. The essential characteristic of the symposium is that a few persons discuss a subject or problem while an audience listens.
