

<<机电工程英语>>

图书基本信息

书名：<<机电工程英语>>

13位ISBN编号：9787560943718

10位ISBN编号：7560943713

出版时间：2008-2

出版时间：华中科技大学出版社

作者：李浙昆

<<机电工程英语>>

内容概要

本书是机电工程专业英语教材，内容涵盖了机械、电子、材料等学科领域的基础理论，以及相关现代新兴技术的发展动向。

具体内容包括机械零件、公差及技术测量、电工电子、工程材料等专业基础知识，以及机电控制、机械设计与制造、液压传动、材料加工、数控技术、机器人技术、计算机辅助设计与制造、微机电系统、纳米技术等现代新技术。

本教材既可作为机电类本科和研究生专业英语的学习教材，也可供相关专业技术人员学习与参考。

书籍目录

Part 1 Mechanisms 1.1 Machine Elements 1.2 Tolerances and Fits 1.3 Gears and Cams 1.4 Basic Concepts of Friction and Lubrication 1.5 Reading Materials: Modern Design Methods 1.6 Reading Materials: Design for Manufacture
Part 2 Electricity and Electronics 2.1 Electric Circuit 2.2 Electric Motors 2.3 Integrated Circuit 2.4 Programmable Logic Controller (PLC) 2.5 Reading Materials: Solar Power 2.6 Reading Materials: AC Servo Motor
Part 3 Engineering Materials 3.1 Iron-Carbon Alloys 3.2 Modern Steel Making Process 3.3 Non-ferrous Alloys 3.4 Nanostructured and Nanocrystalline Metals, Metal Matrix Composites and Ceramics 3.5 Reading Materials: Plasma Surface Treatments 3.6 Reading Materials: Hardenability of Steels
Part 4 Electromechanical Control 4.1 Robot 4.2 Digital Control 4.3 Mechatronic 4.4 Water Hydraulics 4.5 Reading Materials: Accelerometer 4.6 Reading Materials: Modeling & Simulation
Part 5 Test and Measurement 5.1 Strain 5.2 Acoustics 5.3 Vibration 5.4 Digital Signal Processing 5.5 Reading Materials: Shock Motions and Their Measurement 5.6 Reading Materials: Condition Monitoring and Maintenance
Part 6 Mechanical Design and Manufacture 6.1 Lathes 6.2 Design Process and Stages 6.3 CAD/CAM 6.4 Numerical Control (NC) 6.5 Reading Materials: Machining Center 6.6 Tomorrow's Manufacturing Technologies
Part 7 Materials Processing Technology 7.1 Fundamentals of Materials Processing Technology 7.2 Metal Casting Processes 7.3 Metal Forming Process 7.4 Rapid Prototyping Technology 7.5 Reading Materials: Metal Welding Process 7.6 Reading Materials: Semi-solid Metal Process
Part 8 Modern and New Technology 8.1 Microelectromechanical Systems (MEMS) Technology 8.2 Nanotechnology 8.3 Radio Frequency Identification (RFID) Technology 8.4 Superconductors and Applications 8.5 Reading Materials: Lean Manufacturing 8.6 Reading Materials: Laser Applications
2 8.7 Reading Materials: Global Positioning System (GPS)
Reference Answers for Comprehension Exercises
