<<化学工程的可持续发展>>

内容概要

This five-volume book contains the final abstracts of most of the papers presented at the 12th Asian Pacific Confederation of Chemical Engineering Congress (APCChE2008) held in Dalian, China in August 4-6, 2008. Each volume contains approximately 400 abstracts from one or two themes. In addition, a proceeding of the APCChE2008 in a CD-ROM (containing all accepted full-length manuscripts by a large percentage of authors, the technical program, the author-program index and many more) has been prepared for distribution to all participants of APCChE2008.
