<<101雅思制胜法则>>

前言

雅思 (IELTS : International English Language Testing System) 考试是由澳大利亚教育国际开发署 (IDP Education Australia)、英国文化协会 (British Council) 以及剑桥大学考试委员会 (Cambridge ESOL) 共同举办的国际英语水平测试。

雅思考试主要为申请赴英语国家学习或工作的非英语国家学生而设, 用于评定考生运用英语的能力。此项考试目前在120个国家和地区举行, 并得到全球超过6000所院校、机构的认可, 每年报考人次超过140万。

雅思考试分为两大类: 学术类 (Academic) 和培训类 (General Training) ; 前者较多适用于留学, 后者较多适用于移民。

雅思考试包括四个部分, 依次为听力、阅读、写作和口语, 考试时间共计2小时45分钟。

考试中不涉及专业知识, 主要考查考生在真实的语言环境中用英语进行沟通的能力。

为了帮助广大考生更好地了解雅思考试的要求和特点, 迅速夯实语言基础, 提高应试技能, 我们推出了这套由澳大利亚Adams & Austen出版社出版的雅思辅导教材。

这套教材由澳大利亚雅思培训专家编写, 自出版以来受到全球考生的广泛赞誉, 是备战雅思考试的必选材料。

这套教材主要包含: 《101雅思制胜法则》: 分为学术类和培训类两册, 内含101条实用雅思备考技巧及大量的模拟练习; 《202雅思技能强化训练》: 包含针对雅思题型而设置的202道英语技能练习题及拓展练习, 学术类和培训类都适用; 《404雅思精编模考试题》: 分为学术类和培训类两册, 内含4套完整的雅思模考题及针对雅思考试各题型的备考建议; 《互动式三步搞定雅思1001词》: 帮助考生通过识记、转述、应用, “三步走”轻松记忆雅思常考词。

INDEX Index to 101 Helpful Hints

章节摘录

Section (iv) A relatively high traffic throughput can be maintained. —automated systems can react faster than can human drivers—and the increased speed of movement is expected to compensate for loss of privacy . It is estimated that at peak travel times passenger capacity could be more than double that of current subway systems . It might be possible to arrange for two simultaneous methods of vehicle hire : one in which large carriages (1iterally buses) run to a timetable , and another providing for hire of small independently occupied cars at a slightly higher cost . Travellers could order a car by swiping a card through a machine , which recognises a personal number code . Section (V) Monorail systems are not new , but they have SO far been built as adjuncts to existing city road systems . They usually provide a limited service , which is often costly and fails to address the major concern of traffic choking the city . The Beam-Operated Traffic System , on the other hand , provides a complete solution to city transportation . Included in its scope is provision for the movement of pedestrians at any point and to any point within the system . A city relieved of roads carrying fast moving cars and trucks can be given over to pedestrians and cyclists who can walk or pedal as far as they wish before hailing a quickly approaching beam-operated car . Cyclists could use fold-up bicycles for this purpose .

媒体关注与评论

The best book ever seen for the IELTS test preparation. Gives real strategy and hints. Has enough practice tests. It is also very well structured. Very helpful for writing. I got 8 score at the test. ——Asya Ostroukh In my opinion this is one of the first books - if not the very first one - that anybody who would like to know if he should sit for IELTS should consult. This is the book that tells you; in no uncertain terms , what would like to know about this Testing system as completely as possible. ——读者

编辑推荐

《101雅思制胜法则（学术类）》主要包含两部分内容。

第一部分为101条备考策略，是两位作者对多年雅思教学、培训心得与经验的归纳和提炼。

在这一部分，作者结合实例为考生详细介绍了雅思考试的准备方法，听、说、读、写各单项的出题特点及答题技巧等，帮助考生深入了解雅思考试，全面掌握各种解题方法。

第二部分为雅思学术类模拟测试题，包括两套完整的雅思学术类测试题以及两套阅读、写作强化训练题目。

各套试题的选材和命题均符合雅思真题的考查思路，且难度依次递增，以帮助考生循序渐进地提高雅思考试各项技能。

另外，《101雅思制胜法则（学术类）》还附有答题卡、成绩分析表，以及全部阅读文章的译文，帮助考生更好地进行自我检测。
