<<英语诵读经典>>

内容概要

朗读和背诵有助于克服“哑巴英语”。

在中国学英语，在课外说英语的机会不多，朗读和背诵就显得更加重要了。

对于提高口语能力，已有不少专家学者提出了许多好的建议和方法，其中一个重要的方法就是朗读和背诵。

脑子里有词、有句，笔下才能写出来，嘴里才能说出来。

朗读与背诵是口语的基础。

说是即兴表达，因而，要说得好，必须有相当的语言知识和语言材料的积累。

章节摘录

For this purpose , one day , he told his sons to bring him a bundle of chopsticks. When the sons had done so , he put the chopsticks together into a bundle. Then , he placed it into the hands of the eldest son and ordered him to break it in pieces. The son tried with all his strength , but was not able to do it. Then , the father asked the other sons to do the same thing , and got the same result. Then , the father opened the bundle , took the chopsticks separately , one by one , and again put them into his sons' hands. He next asked them to break the chopsticks in their hands again , and this time , they broke the chopsticks easily. The sons were quite puzzled , when the father said , "My sons , if you are of one mind , and unite to help each other , you will be as this bundle , that is , even if you meet with strong enemies and terrible difficulties , you will not be injured as long as you unite as one but on the other hand , if you are divided among yourselves , you will be broken as easily as these chopsticks. "
