<<新托福考试专项进阶>>

内容概要

《新托福考试专项进阶》系列丛书从托福考试所考查的听、说、读、写四项技能入手，为考生提供了详尽的考试指导，并将各技能分为初、中、高三级，通过独特的“进阶训练”方式，再辅以大量练习，让考生逐步掌握托福实考的技巧，同时切实提高英语实际运用能力，从而在短期内轻松取得托福高分。

本丛书内容编排由易到难，循序渐进，实战性强，是不可多得的托福备考资料。

本丛书引进自韩国多乐园出版社。

该社成立于1977年，在韩国英语教育出版领域始终处于领军地位。

本丛书被韩国众多学校和培训机构指定为课堂教材，在托福考生中享有较高声誉。

/ Literature|SportsPART3 Reading to Learn Unit 9 Prose Summary Law / Agriculture / Health Science
/ Economics Unit 10 Fill-in a Table Astronomy / History / Biology / GeologyVocabulary Wrap-upActual
Test

章节摘录

The End of the World Tierra del Fuego is the end of the world. In geographical terms, it might just be. It is a small triangle of land that sits at the bottom of South America. The name means "Land of Fire." It was given the name by a famous explorer who saw the natives fires on the shore. The island is shared by Argentina and Chile. Tierra del Fuego is notable for its unique geography. However, the land is anything but fire. It rests at the southernmost tip of South America. The average temperature for the year is 5~C. In winter, it gets much colder. Much of the temperature differences are due to altitude. Rivers of ice form on the Andes Mountains to the west. Cold rain and winds chill the flat lands to the north and east. It is easy to talk about the land of Tierra del Fuego. The waters that surround it also are unique. They are perhaps the most important in the world. They are home to all kinds of birds. The albatross is the most well-known. There are also whales, squid, and many fish. For a few days in summer, huge schools of sardines move into this part of the world. The local people can simply walk into the water and catch them with shopping bags. Schools of fish are everywhere. They can be caught without bait. These fish are of huge economic value to the locals and to the world. Tierra del Fuego is a rare place. In such a small space, it contains varied land features: mountains, forests, and prairies. Two great oceans meet on either side. This group of features makes it home to a huge range of wildlife. The land has very long days in summer and short days in winter. It is a unique place on earth.
