图书基本信息

书名：<<管理系列>>

13位ISBN编号：9787810443920

10位ISBN编号：7810443925

出版时间：1998-04

出版时间：东北财经大学出版社

作者：马克兰德(美)

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

### 书籍目录

SECTION ONE INTRODUCTION TO OPERATIONS MANAGEMENT	
CHAPTER 1 Manufacturing Operations,	
CHAPTER 2 Service Operations,	
SECTION TWO OPERATIONS STRATEGY	
CHAPTER 3 Operations Strategy,	
SECTION THREE STRATEGIC DECISION CATEGORIES IN OPERATIONS MANAGEMENT	
CHAPTER 4 Forecasting Demand for Products and Services,	
CHAPTER 5 Product Planning and Process Design,	
CHAPTER 6 Long-Range Capacity Planning and Facility Location,	
CHAPTER 7 Managing Quality,	
CHAPTER 8 Technological Developments in Operations Management,	
CHAPTER 9 Organization and Human Resources,	
SECTION FOUR OPERATION PLANNING AND CONTROL	
CHAPTER 10 Global Supply Chain Management,	
CHAPTER 11 Aggregate Production Planning,	
CHAPTER 12 Independent Demand Inventory Management,	
CHAPTER 13 Dependent Demand Inventory Management: Material Requirements Planning,	
CHAPTER 14 Medium- and Short-Range Capacity Planning,	
CHAPTER 15 Shop-Floor Control,	
CHAPTER 16 Just-in-Time Production,	
CHAPTER 17 Design and Scheduling of Service Systems,	
CHAPTER 18 Project Management,	
CHAPTER 19 Quality Analysis, Measurement, and Improvement,	
SECTION FIVE OPERATIONS STRATEGY REVISITED	
CHAPTER 20 Building Competitive Advantage through World-Class Manufacturing: Allen-Bradley's World Contactor Facility,	
SECTION SIX TUTORIALS	
TUTORIAL 1 The Transportation Problem,	
TUTORIAL 2 Decision Analysis,	
TUTORIAL 3 Linear Programming,	
TUTORIAL 4 Simulation,	
TUTORIAL 5 Waiting Line Models,	
Appendix: Tables,	
Glossary,	
Index,	
Acknowledgments,	
Preface, xvi	
SECTION ONE	
Introduction to Operations Management	
INTRODUCTION	
A Preview of Operations Management, 1	
Strategic Operations Management, 3	
Frederick Winslow Taylor,	
Henry Ford,	

<<管理系列>>

Alfred P. Sloan, Jr,  
The Field of Operations Management,  
Recent Trends in Operations Management,  
Just-in-Time Production,  
Total Quality Management,  
Computers and Computer-Related Operations  
Technologies,  
Time-Based Competition,  
Business Process Reengineering,  
The Service Factory,  
Operations Management in Practice 1.3:  
Reengineering at Ford Motor Co.,  
Case Study:  
Northern Telecom,  
CHAPTER 1  
Manufacturing Operations, 6  
Introduction,  
The Transformation Process, 7  
Productivity and the Transformation Process,  
Managing the Transformation Process: The  
Operations Manager,  
Operations Management in Practice 1.1:  
Portrait of a Quality Manager at an Award-Winning  
Manufacturing Company,  
Ecologically Sound Manufacturing,  
Operations Management in Practice 1.2:  
Green Manufacturing at AT&T,  
Types of Manufacturing Operations,  
Project Manufacturing,  
The Job Shop,  
Line-Flow Production,  
Batch Production,  
Hybrid Processes,  
The Product-Process Matrix,  
Company Activities and Strategic Advantage:  
The Value Chain,  
The History of Operations Management,  
Eli Whitney,  
CHAPTER 2  
Service Operations,  
Introduction,  
Defining Services,  
Comparing Service and Manufacturing  
Operations,  
Classifying Service and Manufacturing  
Operations,  
Characteristics of Service Operations,

<<管理系列>>

High Consumer Contact,  
Consumer Participation in the Service Process,  
Perishability of Services,  
Site Selection Dictated by Consumer's  
Location,  
Labor Intensiveness,  
Variable, Nonstandard Output,  
Intangibility of the Service Output,  
Difficulty of Measuring Service Productivity,  
Operations Management in Practice 2.1:  
Hotel Automation: Technology versus Personal  
Service,  
Difficulty of Measuring Service Quality,  
Strategic Approaches to Service Operation  
Management,  
The Service-Process Matrix,  
The Strategic Service Vision,  
Service-Sector Trends,  
Operations Management in Practice 2.2:  
ServiceMaster-Stressing Dignity to Its Workers,  
Increased International Competition in  
Services,  
Improving Productivity and Competitiveness in  
Services,  
Global Operations Management 2.3:  
Global Consulting- Becoming More Competitive  
in the World Economy,  
Technology and Automation in Services,  
Operations Management in Practice 2.4  
On-Line Banking-Will It Finally Become  
Reality?,  
Adequacy of Service Jobs,  
Operations Management in Practice 2.5:  
J.C. Penney Riding the Third Wave of Information  
Technology,  
Greater Quality Emphasis in Services,  
Case Study:  
Wal-Mart versus Kmart: Diverging Paths,  
SECTION TWO  
Operations Strategy  
CHAPTER 3  
Operations Strategy,  
Introduction,  
Business-Level Strategic Planning,  
Functional Area Involvement in Business-Level  
Strategic Planning,  
The Generic Business Strategies,

## <<管理系列>>

Operations Management in Practice 3.1:  
 Strategic Positioning at Haskell of Pittsburgh,  
 Operations Strategic Planning,  
 Operations as a Competitive Weapon,  
 Operations Competitive Priorities,  
 Strategic Operations Choices,  
 Global Operations Management 3.2:  
 Competitive Priorities at Meiji Seika Kaisha  
 Ltd.,  
 Categories of Strategic Operations Decisions,  
 Product or Service Planning,  
 Process Design and Technology  
 Management,  
 Long-Range Capacity Planning and Facility  
 Location,  
 Quality Management,  
 Manufacturing or Service Organization,  
 Human Resource Management,  
 Operations Planning and Control,  
 Vertical Linkages: The Value Chain Revisited,  
 Vertical Integration and Outsourcing,  
 Supply Chain Management,  
 Assembler-Supplier Relationships in Japan,  
 Global Integration of Operations,  
 Global Operations Management 3.3:  
 Global Integration of Operations at Xerox,  
 Case Study:  
 Allen-Bradley,  
 SECTION THREE  
 Strategic Decision Categories in Operations  
 Management  
 CHAPTER 4  
 Forecasting Demand for  
 Products and Services,  
 Introduction,  
 Characteristics of Demand,  
 Factors Influencing Demand,  
 Demand Components,  
 The Forecasting Process,  
 Establish Objectives for the Forecast,  
 Determine What to Forecast,  
 Specify the Time Period for the Forecast,  
 Gather and Analyze Data,  
 Select a Forecasting Method,  
 Make the Forecast,  
 Present the Forecast Results,  
 Monitor and Control the Forecast,

## <<管理系列>>

Approaches to Forecasting-A Preview,  
 Qualitative Forecasting Methods,  
 Naive Extrapolation,  
 Sales Force Composite,  
 Jury of Executive Opinion,  
 The Delphi Method,  
 Global Operations Management 4.1:  
 A Delphi Study of Consumer Attitudes toward  
 Travel in Eastern European Countries,  
 Market Research Surveys,  
 Quantitative Forecasting Methods-Time Series  
 Analysis Models,  
 Operations Management in Practice 4.2:  
 Hewlett-Packard: Sales Forecasting in the Fast  
 Lane,  
 Time Series Smoothing,  
 Operations Management in Practice 4.3:  
 Improving Call Center Forecasting at L.L. Bean,  
 Inc.,  
 Time Series Decomposition,  
 Quantitative Forecasting Methods-Associative  
 Models,  
 Regression Models,  
 Operations Management in Practice 4.4:  
 Using Regression Analysis to Predict the Sales Price  
 of an Apartment Property,  
 Econometric Models,  
 Measuring Forecasting Error,  
 Absolute Measures of Forecasting Error,  
 Relative Measures of Forecasting Error,  
 Monitoring and Controlling Forecasts,  
 Using Computers in Forecasting,  
 Customer Satisfaction, 176  
 Selecting Features for Products and Services,  
 Customer-Driven New Product Ideas,  
 Quality Function Deployment,  
 From the House of Quality to Operation  
 Requirements,  
 Application of QFD to New Product Design,  
 Improving Designs through Simplification and  
 Value Analysis,  
 Design for Manufacturability,  
 Concurrent Engineering,  
 Implementing Cross-Functional Teams in DFM,  
 Process Design and Layout for Manufacturing and  
 Service Systems,  
 Projects: Processes That Don't Flow,

## <<管理系列>>

Intermittent Flow Configurations,  
 Line-Flow Configurations,  
 CHAPTER 5  
 Product Planning and Process  
 Design,  
 Introduction,  
 Assessing Customers' Needs and Wants,  
 Technology-Driven New Product Ideas,  
 New Product Ideas from Market Research,  
 Operations Management in Practice 5.1:  
 Where You Really Need to Hear Customers,  
 The Voice of the Customer,  
 Global Operations Management 5.2:  
 Opel Eisenach GMBH-Creating a  
 High-Productivity Workplace,  
 Cellular Manufacturing,  
 Production Line Approach to Service, .  
 Strategic Issues in Process Design,  
 Product and Process Innovation,  
 The Product-Process Matrix,  
 Designing for the Environment,  
 Operations Management in Practice 5.3:  
 Merck Fights to Keep Up the Production Pace,  
 Operations Management in Practice 5.4:  
 ISO 14000 Standards: Ready for Launching,  
 Case Study:  
 Cellular Manufacturing at Electronic Hardware  
 Corporation,  
 CHAPTER 6  
 Long-Range Capacity Planning  
 and Facility Location,  
 Introduction,  
 An Overview of Capacity Planning,  
 The Importance of Capacity Planning,  
 Defining and Measuring Capacity,  
 Measuring System Effectiveness,  
 Focused Facilities,  
 Operations Management in Practice 6.1:  
 The Focused Factory-Another Concept for  
 Continuous Improvements in Manufacturing,  
 Capacity Strategies,  
 Capacity Cushions,  
 Strategic Timing of Capacity Changes,  
 Sizing Capacity Changes,  
 Operations Management in Practice 6.2:  
 High Volume Production-The Key to Success,  
 Making Capacity Planning Decisions,

## <<管理系列>>

Steps in the Capacity Planning Process,  
 Using Decision Trees in Capacity Planning,  
 Operations Management in Practice 6.3:  
 A Plant Conversion Solves a Plant Capacity  
 Problem,  
 An Overview of Location Decisions,  
 Why Location Decisions Are Important,  
 Location Options,  
 A General Approach to Making Location  
 Decisions,  
 Factors Affecting Location Decisions,  
 Regional, Community, and Site  
 Considerations,  
 Dominant Facility Location Factors in  
 Manufacturing,  
 Dominant Facility Location Factors in Services,  
 Operations Management in Practice 6.4:  
 The Charlotte Panthers Choose a Preseason  
 Training Facility,  
 Making the Single-Facility Location  
 Decision,  
 Detailed Cost Analysis,  
 Factor Rating Systems,  
 Center of Gravity Method,  
 Locational Cost-Volume-Profit Analysis,  
 Making Multiple-Facility Location Decisions,  
 Plant Charters Approach,  
 Transportation Method,  
 Heuristics,  
 Simulation,  
 Optimization Methods,  
 Strategic Trends in Location Decisions,  
 Business Park Proliferation,  
 Operations Management in Practice 6.5:  
 Analyzing Alternative Locations and Service Areas  
 for the American Red Cross,  
 Factories: Research and Development  
 Linkages,  
 Globalization of Production,  
 The Sun Belt Phenomenon,  
 Global Operations Management 6.6;  
 NAFTA Opens a New World of Market  
 Opportunities,  
 Global Operations Management 6.7:  
 Why BMW Moved into Spartanburg,  
 Case Study:  
 Georgia-Pacific Corp.,

<<管理系列>>

Case Study:

Pohang Iron and Steel Co., Ltd.,

CHAPTER 7

Managing Quality,

Introduction,

Quality in Historical Perspective,

Quality Management as a Strategic Issue,

ISO9000 International Standards,

Operations Management in Practice 7.1:

The Ritz-Carlton Hotel Co.,

Role of Quality in Manufacturing Strategy,

Global Operations Management 7.2:

A Global Comparison of Quality Capabilities,

Malcolm Baldrige National Quality Award,

Operations Management in Practice 7.3:

1996 Baldrige Award Winners,

Quality Management Leadership,

W. Edwards Deming,

Joseph M. Juran,

Philip B. Crosby,

Definitions of Quality,

Quality as Excellence,

Quality as Conformance to Specifications,

Quality as Fitness for Use,

Quality as Value for the Price,

Quality-Related Product Characteristics,

Quality-Related Service Characteristics,

Costs of Quality,

Classifying the Costs of Quality,

Interaction of Quality Costs,

Total Quality Management,

TQM Requirements,

TQM Implementation Process,

Barriers to Implementing TQM,

Business Process Reengineering,

Operations Management in Practice 7.4;

Reengineering Taco Bell,

Case Study:

Laying the Groundwork for Total Quality,

CHAPTER 8

Technological Developments in

Operations Management,

Introduction,

Role of Technology in Today's Business

Environment,

Technology and the Environment,

Technology-Focused Strategic Alliances,

## <<管理系列>>

Operations Management in Practice 8.1:  
 DuPont Generates Energy from Garbage,  
 Global Operations Management 8.2:  
 Japan Bids for Global Leadership in Clean  
 Industry,  
 Transferring New Technology from Concept to  
 Reality,  
 Implementing New Technology,  
 Fixed, Programmable, and Flexible Automation,  
 Computer-Integrated Manufacturing,  
 Computer-Aided Design,  
 Computer-Aided Manufacturing,  
 Technological Improvements for Support,  
 Artificial Intelligence: Adaptive Technology  
 for the '90s,  
 Virtual Reality,  
 Technological Improvements in  
 Communications,  
 Operations Management in Practice 8.3:  
 The Marvels of "Virtual Reality",  
 Global Operations Management 8.4:  
 Motorola Plans New Satellite Ventures,  
 Case Study:  
 Pavilion Technologies,  
 CHAPTER 9  
 Organization and Human  
 Resources,  
 Introduction,  
 Strategic Human Resources Planning,  
 Sociotechnical Organizations,  
 Adaptive Organizational Structures,  
 Keys to Worker Productivity,  
 Human Resources Issues of the 1990s  
 and Beyond,  
 Government Regulations,  
 Work Force Diversity,  
 Manager as Leader,  
 Participative Management,  
 Team Activities,  
 Operations Management in Practice 9.1:  
 Multidisciplinary Teams at Dettmers  
 Industries,  
 Fear in the Workplace,  
 Training and Development,  
 Benefits, Compensation, Recognition  
 and Reward,  
 Global Operations Management 9.2:

<<管理系列>>

Preparing U.S. Managers for Work Abroad, 361  
 Operations Management in Practice 9.3:  
 Linking Customer Loyalty to Compensation  
 at Pizza Hut,  
 The Inevitability of Change, .  
 . /ork Measurement,  
 Time Studies,  
 Elemental Standard Times,  
 Predetermined Standard Times,  
 Learning Effects on Time Standard  
 Estimation,  
 The Learning Curve,  
 Uses of Learning Curve Concept,  
 SECTIONFOUR  
 Operation Planning and Control  
 CHAPTER 10  
 Global Supply Chain  
 Management,  
 Introduction,  
 Supply Chain Management for Strategic Advantage,  
 Traditional Logistics Management, '  
 Logistics System Components,  
 Logistics Component Integration  
 Logistical Elements,  
 Logistics Issues,  
 Purchasing,  
 Global Operations Management 10.1:  
 Ford Looks for a Few Good Global Suppliers,  
 Transportation,  
 Warehousing,  
 Customer Service,  
 Bridging the Gap to Supply Chain Management,  
 Operations Management in Practice 10.2:  
 At CAT, They're Driving Supplier Integration into  
 the Design Process,  
 Variability Along the Supply Chain,  
 Operations Management in Practice 10.3:  
 Enemies Make Great Logistics Allies,  
 Role of Information Technology in SCM,  
 Third-Party Logistics Services,  
 Environmental Sensitivity Along the Supply  
 Chain,  
 Operations Management in Practice 10.4:  
 National Semiconductor Improves Supply  
 Chain,  
 Just-in-Time Logistics,  
 Summary of Aggregate Production-Planning

## <<管理系列>>

Methods,  
 Operations Management in Practice 11.2:  
 Meeting the Semiconductor Wafer Fabrication  
 Challenge Using Simulation,  
 Global Operations Management 11.3:  
 Integrated Production Planning for Poultry  
 Processing at Sadia Concordia SA,  
 Aggregate Planning in Service Companies,  
 Global Operations Management 11.4:  
 Aircraft Maintenance Personnel Planning at KLM  
 Royal Dutch Airlines,  
 Implementing Aggregate Production  
 Plans-Managerial Issues,  
 Hierarchical Production Planning,  
 Operations Management in Practice 11.5:  
 Improved Hierarchical Production Planning at  
 Owens-Corning Fiberglass,  
 CHAPTER 11  
 Aggregate Production  
 Planning,  
 Introduction,  
 The Concept of Aggregation,  
 Products,  
 Labor,  
 Time,  
 An Overview of Production-Planning Activities,  
 Long-Range Planning,  
 Medium-Range Planning,  
 Short-Range Planning,  
 Framework for Aggregate Production Planning,  
 Operations Management in Practice 11.1:  
 New Software Systems Speed Up Production  
 Planning,  
 The Production-Planning Environment,  
 Strategies for Aggregate Production Planning,  
 Techniques for Aggregate Production Planning,  
 Trial-and-Error Method,  
 Mathematical Techniques,  
 CHAPTER 12  
 Independent Demand Inventory  
 Management,  
 Introduction,  
 Independent and Dependent Demand,  
 Basic Inventory Concepts,  
 Types of Inventories,  
 How to Measure Inventory,  
 Operations Management in Practice 12.1:

## <<管理系列>>

Increasing Profits by Squeezing Work-in-Process Inventory,  
 Reasons for Holding Inventories,  
 Inventory Costs,  
 Operations Management in Practice 12.2:  
 Inventory Control-An Important Ingredient in Wal-Mart's Recipe for Success,  
 Classifying Inventory Items,  
 Inventory Records,  
 Objectives of Inventory Control,  
 Global Operations Management 12.3:  
 Beamscope Canada, Inc. Moves to the On-Line Age in Inventory Control and Distribution,  
 How Much to Order: Economic Order Quantity Models,  
 Economic Order Quantity: Constant Demand, No Shortages,  
 Economic Order Quantity: Constant Demand Shortages Allowed,  
 Economic Order Quantity: Uniform Replenishment Rate, Constant Demand No Shortages,  
 Economic Order Quantity: Quantity Discounts,  
 Sensitivity Analysis for the EOQ Model,  
 When to Order: The Continuous Review System.  
 Determining the Reorder Point,  
 Operations Management in Practice 12.4:  
 Delivering the Hits at Musicland,  
 Service Levels, Safety Stock, and Shortages,  
 When to Order: The Periodic Review System,  
 Comparing the Continuous Review and Periodic Review Systems,  
 Operations Management in Practice 12.5:  
 Reducing Inventory and Improving Productivity at Von Duprin, Inc.,  
 CHAPTER 13  
 Dependent Demand Inventory  
 Management: Material  
 Requirements Planning,  
 Introduction,  
 The Development of Material Requirements Planning (MRP),  
 MRP Prerequisites,  
 Operations Management in Practice 13.1-  
 MRP at Steelcase,

## <<管理系列>>

The Master Production Schedule,  
 Bills of Material,  
 Inventory Records,  
 The MRP Process,  
 MRP Records,  
 Timing Conventions,  
 MRP Record Calculations,  
 An MRP Example,  
 Low-Level Coding,  
 Gross-to-Net Requirements Explosion,  
 Important Observations,  
 Loss of Visibility for Low-Level Components,  
 Minimum Length for the Planning Horizon,  
 LIRP System Nervousness,  
 Freezing the Master Production Schedule,  
 Lumpiness of Demand,  
 Lot Sizing,  
 Lot-for-Lot,  
 Fixed Order Quantity,  
 Period Order Quantity  
 Lot Sizing and MRP System Nervousness,  
 The Importance of Lot Sizing,  
 Use of MRP Systems,  
 Some Practical Considerations in Using MRP,  
 Uncertainty,  
 Modular Bills of Material,  
 Closed Loop MRP,  
 MRP II-Manufacturing ResourcePlanning,  
 Implementation of MRP,  
 Existing Systems and the Informal System,  
 Information Requirements,  
 Inventory Control,  
 Operations Management in Practice 13.2:  
 MRP and the Real Cost of Inventory Losses  
 at Cendex,  
 Keys to Successful Implementation,  
 An MRP Implementation Plan,  
 Global Operations Management 13.3:  
 Implementing MRP II at the Raymond  
 Corporation,  
 Distribution Requirements Planning (DRP),  
 CHAPTER 14  
 Medium- and Short-Range  
 Capacity Planning,  
 Introduction,  
 The Need for Capacity Planning,  
 Strategic Implications of Capacity Planning,

## <<管理系列>>

Capacity Planning and the Production Planning and Scheduling Framework,  
 Capacity Planning as a Trial-and-Error Process,  
 Operations Management in Practice 14.1-  
 Capacity Planning Makes the Shop Floor Manageable at Minnesota Wire (5 Cable Co.,  
 A Capacity Planning Example  
 Rough-Cut Capacity Planning Methods,  
 Capacity Planning Using Overall Factors (CPOF),  
 Capacity Planning Using Capacity Bills (CB),  
 Capacity Planning Using Resource Profiles (RP),  
 Comparison of Rough-Cut Methods Results,  
 Detailed Capacity Planning,  
 Capacity Requirements Planning (CRP),  
 Using CRP,  
 Operations Management in Practice 14.2:  
 Capacity Planning in a Make-to-Order Environment at Borsig Valve Co  
 Capacity Planning and Service Operations,  
 CHAPTER 15  
 Shop-Floor Control,  
 Introduction,  
 The Task of the Shop-Floor Control Manager,  
 Shop-Floor Control in Continuous and Repetitive Operations,  
 Continuous Process Shop-Floor Control,  
 Repetitive Operation Shop-Floor Control,  
 Mixed-Model Assembly in Repetitive Manufacturing,  
 Shop-Floor Control in Intermittent, Job Shop Operations,  
 Terminology,  
 Performance Measures in Job Shop-Floor Control,  
 Scheduling Intermittent Job Shop Processes,  
 Input-Output Control,  
 Order Review and Release,  
 Scheduling and Sequencing,  
 Gantt Chart Construction,  
 Johnson's Rule for Fixed Sequence, Two-Machine Problems,  
 Data Collection and Order Disposition,  
 Operations Management in Practice 15.1:  
 Streamline Manufacturing: Sun Microsystems, Inc.,  
 Innovative Control: Theory of Constraints,

<<管理系列>>

Operations Management in Practice 15.2:  
 Dixie Reengineers Scheduling and Increases Profit  
 300 Percent,  
 CHAPTER 16  
 Just-in-Time Production,  
 Introduction,  
 Operations Management in Practice 16.1:  
 Labor Unrest and the JIT Production  
 Environment,  
 Strategic Effects of Just-in-Time Production,  
 Origins of JIT Philosophy,  
 Total Business Cycle Management,  
 Managing Material Flows,  
 Setup Reduction and the EOQ Lot Size,  
 Inventory Reduction Caution,  
 Just-in-Time System Requirements,  
 Production Flexibility Along the Supply Chain,  
 Schedule Stability and Discipline,  
 Global Operations Management 16.2:  
 Canadian Supplier Speeds Parts Delivery Across  
 the Border,  
 Comprehensive Quality Assurance,  
 Creating Teams of Competent, Empowered  
 Employees,  
 JIT Systems and Signals,  
 Logistics Systems to Support JIT Delivery,  
 Implementation of Just-in-Time,  
 Operations Management in Practice 16.3:  
 Purchasing Leads the Charge Toward  
 Just-in-Time,  
 Coordinating JIT and Material Requirements  
 Planning,  
 Case Study:  
 Saturn Corporation, Then and Now,  
 CHAPTER 17  
 Design and Scheduling of Service  
 Systems,  
 Introduction,  
 The Evolution of the Service System,  
 Service Strategy,  
 The Service Package,  
 Strategic Approaches to Service System Design,  
 Production-Line Approach,  
 Operations Management in Practice 17.1;  
 SABRE-The Evolution of an Airline Demand  
 Management System,  
 Global Operations Management 17.2:

## <<管理系列>>

McDonald's Invades the World,  
 Isolating the Technical Core Approach,  
 Consumer Participation Approach,  
 Strategies for Managing Service Demand,  
 Price Incentives,  
 Promoting Off-Peak Demand,  
 Partitioning Demand,  
 Inventorying Demand-Reservation Systems,  
 Inventorying Demand-Queueing Systems,  
 Developing Complementary Services,  
 Strategies for Controlling Service Supply,  
 Operations Management in Practice 17.3:  
 On-Line Grocery Shopping: Consumers Begin  
 to Take a Bite,  
 Daily Work Shift Scheduling,  
 Weekly Work Shift Scheduling,  
 Part-Time Staffing,  
 Cross-Training Employees,  
 Customer Self-Service,  
 Adjusting or Sharing Capacity,  
 Operations Management in Practice 17.4:  
 Restaurant Drive-Throughs Improve  
 Services,  
 Vehicle Routing,  
 The Clarke-Wright Savings Heuristic,  
 Case Study:  
 National Technological University,  
 CHAPTER18  
 Project Management,  
 Introduction,  
 Work Breakdown Structures (WBS),  
 Gantt Charts,  
 PERT and CPM,  
 Construction of a Project Network,  
 Calculating the Completion Time for a  
 Project,  
 Operations Management in Practice 18.1:  
 Project Management for Product Launch at  
 Oldsmobile,  
 Managing Project Resources,  
 Developing Project Budgets,  
 Monitoring and Controlling Project Costs,  
 Resource Limitations,  
 Time/Cost Trade-Offs in Project  
 Management,  
 PERT Networks and Uncertain Time  
 Estimates,

<<管理系列>>

Operations Management in Practice 18.2:  
Using Project Management Tools in Building  
Construction at Michigan State  
University,  
Guidelines for Managing Projects,  
Operations Management in Practice 18.3:  
Platform Teams in the U.S. Auto Industry,  
Case Study:  
The Hershey Foods Leaf Integration  
Project,  
CHAPTER 19  
Quality Analysis, Measurement,  
and Improvement,  
Introduction,  
Total Quality Management Implementation  
Process,  
Process Analysis for Continuous Improvement,  
Process Improvement Model,  
Benchmarking,  
Data Collection, Analysis, and Presentation,  
Operations Management in Practice 19.1:  
Aerospace and Defense Contractors Use Strategic  
Benchmarking for Improvement,  
Statistical Tools for Process Improvement,  
Statistical Sampling and Control,  
Sampling and the Central Limit Theorem,  
Using Statistics to Test Inferences about Quality  
Control,  
Process Control Charts,  
Control Limits Versus Specification Limits,  
Acceptance Sampling,  
SECTION FIVE  
Operations Management Revisited  
CHAPTER 20  
Building Competitive Advantage  
through World-Class  
Manufacturing: Allen-Bradley's  
World Contactor Facility,  
Introduction,  
Allen-Bradley's World Contactors,  
The World Contactor Facility,  
Identifying Strategic Threats and Opportunities,  
The Competitive Challenge,  
Defining Competitive Advantage,  
The Foundation for Success,  
Building Competitive Advantage: Toward World-Class  
Manufacturing,

## <<管理系列>>

Cost,  
 Quality,  
 Flexibility and Lead Times,  
 Manufacturing Approaches, Methods and  
 Technologies,  
 Concurrent Engineering and the Team  
 Approach,  
 Computer-Integrated Manufacturing and the  
 Productivity Pyramid,  
 Bar Coding,  
 Total Quality Management,  
 Just-in-Time Manufacturing,  
 Human Resource Management,  
 World-Class Manufacturing at Allen-Bradley:  
 Outcomes and Benefits,  
 World-Class Manufacturing: A Synopsis,  
 SECTION SIX  
 Tutorials  
 TUTORIAL 1  
 The Transportation  
 Problem,  
 Introduction,  
 Mathematical Structure of the Transportation  
 Problem,  
 Solving the Transportation problem,  
 Finding an Initial Basic Feasible  
 Solution,  
 Example T1.1,  
 Example T1.2,  
 Moving to an Optimal Solution: The  
 Stepping-Stone Method,  
 Example T1.3  
 Example T1.4,  
 Special Situations,  
 Alternative Optimal Solutions,  
 Unacceptable Transportation Routes,  
 Degeneracy,  
 Example T1.5,  
 The Unbalanced Transportation Problem,  
 Example T1.6,  
 Changes in Transportation Costs,  
 Example T1.7,  
 Example T1.8,  
 Profit Maximization Transportation  
 Problems,  
 TUTORIAL 2  
 Decision Analysis,

## <<管理系列>>

Introduction,  
 Example T2.1,  
 Dominated Alternatives,  
 Decision Making under Uncertainty,  
 Optimistic (Maximax) Criterion,  
 Pessimistic (Maximin) Criterion,  
 Coefficient of Optimism (Hurwicz)  
 Criterion,  
 Equally Likely Criterion,  
 Minimax Regret Criterion,  
 Decision Making under Risk,  
 Expected Value Criterion,  
 Decision Trees,  
 Decision Making with Additional  
 Information,  
 Expected Value of Perfect Information,  
 Accuracy of Additional Information,  
 Bayes' Theorem,  
 Evaluating and Using Additional  
 Information,  
 TUTORIAL 3  
 Linear Programming,  
 Introduction,  
 Formulating a Linear Programming Model,  
 Example T3.1,  
 Assumptions Used in Linear Programming,  
 Mathematical Structure of the Linear Programming  
 Model,  
 Graphical Solutions to Linear Programming  
 Problems,  
 Example T3.2,  
 Solving Linear Programming Problems Using the  
 Simplex Method,  
 Example T3.3,  
 Technical Steps in the Simplex Method,  
 Summary of the Steps in the Simplex Method:  
 Maximization Problems,  
 Shadow Prices,  
 Other Issues in Linear Programming,  
 Other Types of Constraints ( $\geq$  and  $=$ ),  
 Sensitivity Analysis,  
 TUTORIAL 4  
 Simulation,  
 Introduction,  
 An Overview of Simulation,  
 Steps in a Simulation Study,  
 Simulating Exogenous Inputs,

<<管理系列>>

Example T4.1,  
Simulating the System,  
Simulation Languages,  
TUTORIAL 5  
Waiting Line Models,  
Introduction,  
Structure of Waiting Line Problems,  
The Input Process,  
The Waiting Line (Queue),  
The Service Facility,  
Operating Characteristic of Waiting Line Models,  
Notation Used for Waiting Line Models,  
Data Collection and Model Validation,  
Decision Variables in the Analysis of Waiting Lines,  
The Single-Channel, Single-Phase Waiting Line  
Model,  
Application of the Single-Channel, Single-Phase  
Waiting Line Model,  
The Multiple-Channel, Single-Phase Waiting Line  
Model,  
Application of the Multiple-Channel, Single-Phase  
Waiting Line Model,  
Other Waiting Line Models,  
APPENDIX  
Tables,  
GLOSSARY,  
INDEX,  
ACKNOWLEDGMENTS,
