<<大学英语写作>>

内容概要

This book introduces students to academic writing through a sequenced set of assignments that help them to move from personal, expressive writing to informative and persuasive writing. The use of source materials, including summary, paraphrase, quotation, and documentation, is emphasized in the informative and persuasive writing assignments. The book stresses writing as a process and encourages the use of collaborative learning strategies as well as individual activities. Therefore, this book is mainly for students enrolled in English writing courses. It is suitable for undergraduates, both English majors, and non-English majors, and Master Students from other majors than English. Students who want to study abroad in English-speaking countries will also find this book useful because good writing skills are essential for success in courses and examinations in an academic setting.
