<<YUNNAN 云南>>

内容概要

Wedged between Tibet and the exotic lands of Southeast Asia, Yunnan Province is one of the least known and most beguiling regions of China. A mountainous wonderland, it is home to 24 diverse, colorful ethnic cultures. With a name meaning ‘ South of the Clouds ’ , Yunnan boasts sparkling blue skies, red earth, and green forests. The picturesque capital of Yunnan, Kunming — ‘ the City of Eternal Spring ’ —lies near a serene, mile-high lake. Other natural marvels, such as the haunting Stone Forest and lush tropical Xizhuangbanna, make Yunnan a microcosm of China at its very best.
